FEDERAÇÃO PORTUGUESA DE GOLFE

To all

Golf Courses and

Handicap & Course Rating Committee

Lisbon, 12 March 2010

CIRCULAR Nº 11/10

P&P Golf Courses Homologation

In order to standardize and simplify the homologation procedure of Pitch & Putt golf courses, please find enclosed two documents which will be part of the homologation process:

a) The Homologation File, which contains technical information regarding the holes of the P&P golf course: size, strokes and number of holes.

Please include the Course layout, whenever available.

The signature of the golf course responsible entity is mandatory.

In a first phase, after the Pitch & Putt Committee receives the document, checks if the information complies with the Pitch & Putt Internal Rules, followed by a visit to the golf course, in order to homologate it.

Please note that for a P&P tournament to be valid for handicap purposes it is mandatory to be played in a Pitch & Putt golf course with 1200 metres, as foreseen in the pitch & Putt Handicap Rules.

b) The Course Assessment File, from IPPA (International Pitch and Putt Association), which contains all information about available golf courses and services.

These files are sent to the PGF and IPPA data base allowing any national and international player to know where to find Pitch & Putt golf courses in Portugal, as well as all the information related to those courses.

Note – Some Clubs already sent file a), and we are now expecting file b).

Best Regards,

Portuguese Golf Federation

Pedro Vicente
General secretary

Note: Please place this document in a prominent place where all members can be made aware of its contents.
